

10 Oaks

Houston, TX

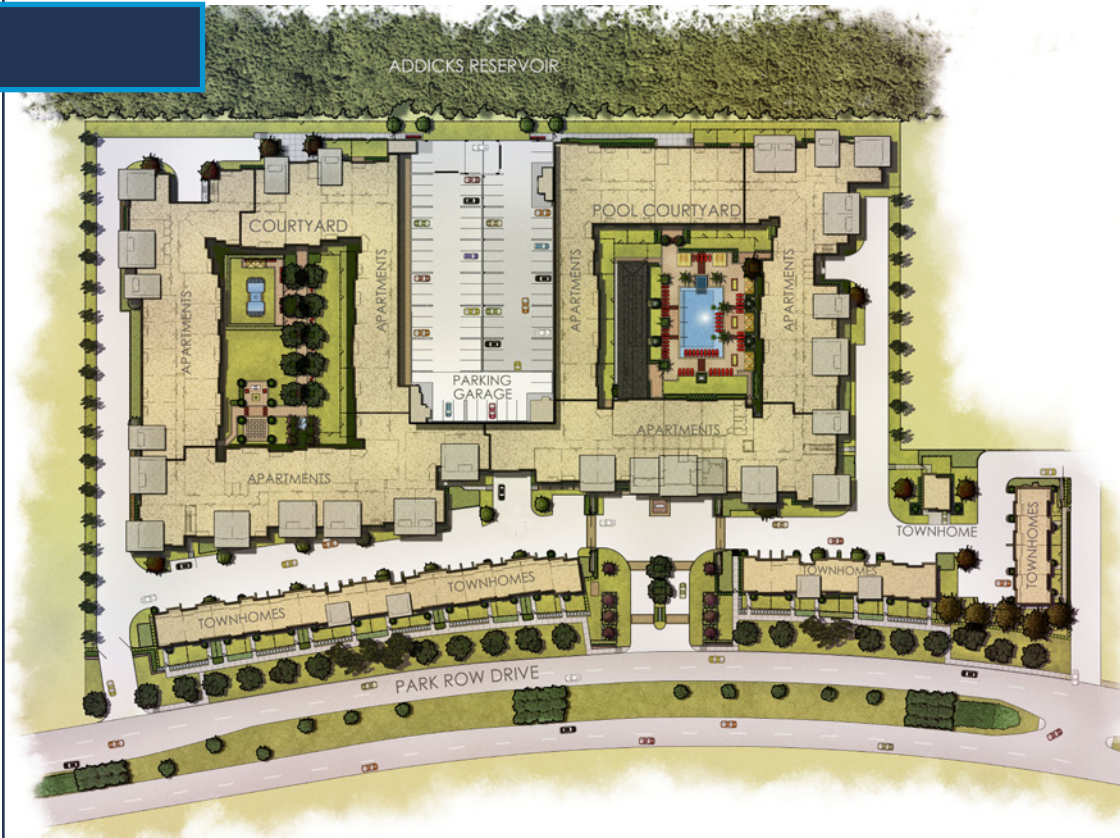

Client: Hunington Properties

E.L.I. Services:
Design

Description:

10 Oaks is a Class-A apartment and townhome project situated five minutes West of the energy corridor.

The multifamily community boasts two large open air courtyards. The pool courtyard provides a place for the residence to enjoy the day by the pool while the private backyards allows the residents an outdoor space to call their own. The second courtyard provides an outdoor grilling area, life size chess and Jenga and open lawn space. Pets can also utilize the amenities, including a dog park complete with a dog pool.

(Above): The design of 10 Oaks provides a clean, crisp landscape that complements the surrounding architecture. The lush landscaping combined with the existing trees and the Addicks Reservoir's native landscape

(Below): Concept images of the pool courtyard complete with granite block water features, cabanas and private backyards.
